🌿 WORK EXPERIENCE:

EP + Co

April 2014 - Present

UX Developer

(www.EPandCompany.com)

Managed the Frontend team with 3 direct reports. Created intricate, cutting-edge sites for large companys like Verizon, Regeneron, Denny's, and others. Used React, Angular, and RiotJS to make dynamic codebases more future-friendly and easy to pass between colleagues. All sites were made with ADA in mind with a focus on making content accessible for ALL users.

Ferebee Lane & Co.

October 2012 - April 2014

Interactive Developer

(www.FerebeeLane.com)

Created complex, cross-browser, mobile responsive websites using HTML5 and CSS3. Utilized Javascript to create rich content for these sites. Maintained client websites and added capabilities to existing pages while monitoring analytics and optimizing content. Worked with clients to create comprehensive SEO and SEM strategies, then monitored and optimized those campaigns with Google Analytics and Adwords.

Jackson Marketing Group

February 2012 - September 2012

Interactive Developer / Designer

(www.JacksonMG.com)

Created and maintained client websites using HTML5 and CSS3 including traditional, mobile and responsive sites. Created rich media for websites, presentations and banner ads using Flash. Created email blasts and managed reporting on email marketing campaigns. Met with clients to explain CMS systems, Analytics data, etc.

The Bounce Agency

December 2009 - January 2012

Interactive Developer

Created rich media for websites and banner ads in Adobe Flash. Used HTML and CSS to build and maintain client sites. Created and reported on email marketing campaigns. Maintained agency and clients' social media efforts. Began and maintained agency and client SEO/SEM efforts. Edited client video projects and created intro animations using Adobe After Effects.
